

# Programs for donating your body after death

Donating your body to a research institution can bring hope to future generations by:

- Training future doctors, surgeons and other health care providers
- Helping researchers find new treatments

Donating your whole body is different than being an organ donor. To donate your body, you must reach out to an institution that takes whole-body donations.

These institutions have whole-body donation programs:

Kirksville College of  
Osteopathic Medicine  
A.T. Still University  
Anatomy Department  
800 West Jefferson Street  
Kirksville, MO 66160
