

Save lives

Join the Donate Life Missouri Registry

The **Donate Life Missouri Registry** is a voluntary registry of donors. Donors gift their organs, eyes, or tissues at the time of their death. Being a donor is a personal choice.

A donor can save up to 8 lives, give sight to 2 people, and as a tissue donor can restore health and heal the lives of more than 75 people.

3 ways to register to be an organ donor

1. Scan the QR code to sign up online, or visit DonateLifeMissouri.org.
2. Simply say 'Yes' at the DMV when you apply for or renew your driver's license, ID, or permit.
3. Call **(888) 497-4564** and request a paper form and we'll send one to you along with instructions.

3 ways to remove your name from the registry

1. Scan the QR code to remove your name online, or visit DonateLifeMissouri.org.
2. Simply say 'No' at the DMV when you apply for or renew your driver's license, ID, or permit.
3. Call **(888) 497-4564** and request a paper form and we'll send one to you along with instructions.

How to edit your donor registration

Scan the QR code to edit your record online, or visit DonateLifeMissouri.org. You can change:

- Your contact information.
- Which organs and tissues you want to donate.
- If you want to donate for transplant, research or both.

The team who gives you medical care is different from the transplant team. This is to make sure that the medical team is not involved in decisions about organ, eye, and tissue donation.

The transplant recovery team will find out if your gift is safe to use for others. State law gives these staff this right.

Joining the registry allows the transplant recovery team to:

- Inform next of kin of your choice to be a donor.
- Obtain social and medical history.

Organ and tissue donation is your choice. It is a gift of life.

- You can change or cancel your gift at any time.
- All ages can join the registry. You do not have to be in the registry to be a donor.

- You must document, as outlined by law, if you do not want others to make a gift for you.
- At death, parents or legal caretakers make the final choice for people age birth to 17 who do not have legal adult status.
- If there is no record in the registry, someone you assign, next of kin, guardian, or chosen person can talk for you.

The registry is confidential.

Your data is only shared with approved agencies when you are at or near death.

A suspended, expired, or lost driver license does not cancel your choice to be a donor.
